**RUCHTER'S**  
DURABLE PAINT

MOST  
ECONOMICAL  
BECAUSE  
MOST  
DURABLE.

### MADE WITH ASBESTOS

Ruchter's Durable Paint is made from the best known paint pigments, combined with heat and fireproof asbestos. This mineral is imperishable, even when subjected to the most intense heat, whereas all paint pigments, when used alone, are quickly destroyed and perish.

This tells the story why Ruchter's will look well all the time, whereas the paints made upon theory only, blister, crack, chip and fade, when the sun burns hotly upon the building.

The intense heat from the sun's rays is the medium that destroys all ordinary paints that are on the market, the heat causing them to blister, crack, chip, chalk, the colors to fade, the oil to dry out, leaving the paint lifeless and brittle to be washed off by storms and climatic changes.

The south side of the building, which receives the brunt of the sun's heat is always the first part of a building on which the paint begins to blister, crack, fade or chalk off.

A good quality of paint never deteriorates in cool weather; but during the summer months when the sun burns fiercely upon it, destruction quickly follows, as thousands of consumers can attest to their sorrow.

A Paint, to be permanent and durable, must therefore be so constructed as to successfully withstand the intense heat from the sun. By Ruchter's method and process this has been accomplished. Upon Ruchter's the heat has no effect, and the coating remains durable and permanent. See that this name is upon each package.

Governor Dawson reduced the general appropriation bill, carrying about \$3,500 for the fiscal years 1909 and 1908 \$200,000, by the use of the veto power. Among the items cut out of the bill are \$1450 for Shepherd College for the first year and \$1850 for the second year—appropriated for library, gymnasium, furniture, apparatus, improvements, etc., and for the purchase of additional land, for which \$1000 was provided for 1908. The appropriation of \$2000 each year for industrial department at Storer College goes out; also \$2,000 each year for the proposed Ramsey monument, \$500 to pay the Town Hall Association, at Shepherdstown for normal school use of the town hall, and \$1,250 each year for the King's Daughters' Hospital at Martinsburg. The State Reform School loses each year \$1250 (\$1000 for hospital), and the University \$19,000 the second year. The appropriation of \$10,000 a year for extermination of the San Jose scale is lopped off; \$2500 for inspection of herds and dairies, and killing of diseased cattle (1907); and \$10,000 provided for premiums on insurance of public buildings. The legislative appropriation bill was also cut to the amount of the House and Senate contingent funds for the extra session. The Governor's estimate of the revenues for the two years covered is \$3,080,000; the appropriations totaled \$3,243,764. Some items, he says, would have been vetoed regardless of the danger of a deficit, but most of the cuts were made necessary by the excess of appropriations over estimated revenues.

#### The Serious-Minded Women.

"There is nothing that women cannot do—but the work must be planned with a modesty which is the inherent charm of the superior sex," writes Herbert D. Ward in Woman's Home Companion for April.

"As I said, every community has its own problem. Most of these originate outside of the home. Pure water, pure food, pure air; clean streets, sanitary schools and tenements; district nursing; the education of the ignorant in the care of babies; the question of paupers; the public baths and traveling libraries; the treatment of our women prisoners in prison and after; the lodging house problem—these are only a few of the civic puzzles crying for trained women to solve."

"A woman does probably her greatest share of her duty as a citizen when she makes a home a safe and happy harbor of refuge from a stormy world, when she brings up her children into noble manhood and womanhood, and when she does not destroy her husband and family by bad cooking and bad temper; but that same woman crowns her career as a citizen when she interests herself in and becomes a vital part of some problem of government. A woman successful in home life is desperately needed in civic life."

We direct attention to the advertisement of the National Citizens Bank in another column. They completed the board of directors last week by the election of Messrs C. W. Henshaw and John H. Bishop, Mr. Gerard D. Moore former clerk of county court, was elected cashier in place of Mr. T. C. Green who had been temporarily acting as such. This is the only national bank in Jefferson county. It has strong financial backing and offers prompt and liberal service. The board of directors are safe and conservative men who are working in harmony for the up-building and prosperity of the bank. The new feature of safe deposit boxes will be a great convenience for its patrons.—Free Press.

#### SAVED HER SON'S LIFE.

The happiest mother in the little town of Ava, Mo., is Mrs. S. Ruppel. She writes: "One year ago my son was down with such serious lung trouble that our physician was unable to help him; when by our druggist's advice I began giving him Dr. King's New Discovery, and I soon noticed improvement. I kept this treatment up for a few weeks when he was perfectly well. He has worked steadily since at carpenter work. Dr. King's New Discovery saved his life." Guaranteed best cough and cold cure by All Druggists. 50c and \$1.00. Trial bottle free.

#### \$50,000 Reward—Standing Offer.

Is set aside by the American Philanthropic Society, of Chicago for any man on the face of the earth that discovers and re-traces the lost art in medicine, which will dissolve and heal stricture. Until about 1881, there lived in Providence, R. I., a Dr. Graves, who dissolved and healed strictures with a liquid medicine. It had a mild taste and looked like tea. It cured every case of stricture in about three weeks, and this good physician seemingly left no record of the prescription, as it is supposed it was buried in the grave with him.

In the year 1891, there was a certain T. T. Matthews, of Norwood, Ohio, who had a little cocoa butter cylinder, which cured strictures in about four weeks, and it may be possible to trace either one or both of these remedies.

There are plenty of living witnesses to the above statement. It is known to be a fact that there are about 90 per cent of mankind suffering silently with stricture, and not one is cured so for humanity's sake we will give the above reward to the person who can produce the prescription of either Dr. Graves, or T. T. Matthews.

#### WHAT OUR REPORTER SAW IN NEW YORK.

A recent visit to one of the largest paint factories in the world, disclosed machinery that was producing 10,000 gallons of Paint, and doing it better and in less time than 100 gallons could be made by hand mixing. This was the celebrated L. & M. Paint. The L. & M. Zinc hardens L. & M. White Lead and makes L. & M. Paint wear like iron for 10 to 15 years.

4 gallons L. & M. mixed with 3 gallons Linseed Oil makes 7 gallons of paint at a cost of less than \$1.20 per gallon.

#### PROOF OF MERIT.

The proof of the merits of a plaster is the cures it effects, and the voluntary testimonial of those who have used Alcock's Plasters during the past sixty years is unimpeachable evidence of their superiority and should convince the most skeptical. Self-praise is no recommendation, but certificates from those who have used them are.

Alcock's are the original and genuine porous plasters and have never been equalled by those who have sought to trade upon their reputation by making plasters with holes in them. Avoid substitutes as you would counterfeit money.

#### BEWARE OF OINTMENTS FOR CATARRH THAT CONTAIN MERCURY.

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure manufactured by F. J. Cheney & Co., Toledo, Ohio, contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.

#### HIDDEN DANGERS.

Nature Gives Timely Warnings That

No Martinsburg Citizen Can Afford to Ignore.

Danger Signal No. 1 comes from the kidney secretions. They will warn you when the kidneys are sick. Well kidneys excrete a clear, amber fluid. Sick kidneys send out a thin, pale and foamy, or a thick, red, ill-smelling urine, full of sediment and irregular of passage.

Danger Signal No. 2 comes from the back. Back pains, dull and heavy, or sharp and acute, tell you of sick kidneys and warn you of the approach of dropsy, diabetes and Bright's disease. Doan's Kidney Pills cure sick kidneys and cure them permanently. Here's Martinsburg proof.

Wm. H. Couchman, corner Martin St., and Maple Ave., Martinsburg, W. Va., says: "I was suddenly taken with sharp stitches which were terrible while they lasted. If I stood in one position for any length of time I was compelled to move about to get a little relief. If I stooped, lifted or caught cold the trouble was aggravated. I was in this condition when I heard about Doan's Kidney Pills and got them at Shepherd's drug store. I was told they were reliable by a friend who had used them. I took them and in a few days the pain left my back and in a short time the aching as well as the other distressing symptoms of kidney disorder disappeared."

For sale by all dealers. Price 50 cents. Foster-McBarn Co., Buffalo, New York, sole agents for the United States.

Remember the name Doan's and take no other.
